2. OBJECTIVES:

- broaden knowledge of the state of the art in the area of evaluating the efficiency and effectiveness of educational systems;
- identify and select the appropriate methods for studying educational systems;
- develop research skills through the application of selected methods;
- exercise critical thinking in evaluating the research process and the results obtained.
- obtain results that can have an impact on the design of public education policies.

3. BRIEF PRESENTATION OF THE WORK PROGRAMME AND TRAINING:

- Contextualisation of the panorama of education systems in the European Union, considering the objectives of the European Union's Education and Training Strategy (ET2020), with emphasis on the Portuguese case;
- Prepare a literature review on evaluating efficiency, effectiveness and equity in the education sector and identify the main challenges facing education in the age of artificial intelligence;
- Understanding the methods that can be used to analyse efficiency, effectiveness and equity;
- Understanding the type of data available to the education analyst: data from the international surveys PISA, carried out by the OECD (Organisation for Economic Cooperation and Development), TIMSS and PIRLS, carried out by the IEA (International Association for the Evaluation of Educational Achievement) and TALIS (Teaching and Learning International Survey) of the OECD.
- Draw up analyses of the efficiency and/or effectiveness and/or equity of European education systems by proposing innovative quantitative measures. Analyses can be carried out at various levels, including primary/secondary schools, universities, and education systems in European countries or regions;

- The research work should be published in scientific journals, preferably indexed in the Scopus and Web of Science databases.
- Prepare a report on the grant's activities.

4. REQUIRED PROFILE:

Admission requirements:

Master's degree in Industrial Engineering and Management or a related area;
The awarding of the fellowship is dependent on the applicants' enrolment in study cycle or non-award courses of Higher Education Institutions.

Preference factors:

E- research experience in methods for efficiency analysis and productivity.

Minimum requirements:

- Master's degree average grade equal to or higher than 16.

5. EVALUATION OF APPLICATIONS AND SELECTION PROCESS:

Selection criteria and corresponding valuation: the first phase comprises the Academic Evaluation (AC), based on the criteria referred to in Article 12 of the [Regulations for Grants of INESC TEC](#), while the second phase comprehends the Individual Interview (EI). All factors are evaluated on a scale of 0 to 100, taking into account the applicants' merit, suitability and conformity with the preference factors.

The weight of the AC factors are as follows: Academic Qualifications (FA, 60%), Scientific Publications (PC, 15%), Experience (EX, 15%) and Motivation Letter (CM, 10%).

Candidates who score less than 50 points in the AC average will be considered excluded on absolute merit. The top five candidates approved on absolute merit will be qualified for the individual interview. The Final Grade (CF) is obtained by the weighted average of AC (60%) and EI (40%).

The Selection Jury is composed of the following members:

President of the Jury: Ana Camanho
