

CALL FOR GRANT APPLICATIONS (AE2025-0178)

INESC TEC is now accepting grant applications to award 1 Research Grant (BI) within the scope of the ATE funded by IAPMEI with reference 56 Co-financed by Component 5 - Capitalization and Business Innovation, integrated in the Resilience Dimension of the Recovery and Resilience Plan within the scope of the Recovery and Resilience Mechanism (MRR) of the European Union (EU), framed in the Next Generation EU, for the period 2021 - 2026.

1. GRANT DESCRIPTION

Type of grant: Research Grant (BI)

General scientific area: ENGINEERING

Scientific subarea: Computer engineering, Communication engineering, Electrical engineering

Area of Work: Data Engineering

Grant duration: 6 months, starting on 2025-07-01.

Scientific advisor: Tiago André Soares

Workplace: INESC TEC, Porto, Portugal

Maintenance stipend: € 1040.98, [according to the table of monthly maintenance stipend for FCT grants](#), paid via bank transfer. Grant holders may be awarded potential supplements, according to a quarterly evaluation process (Articles 19, 21 and 22 of the [Regulations for Grants of INESC TEC](#) and Annex II), up to a maximum limit of 50% of the monthly maintenance stipend.

INESC TEC supports costs with registration, enrolment or tuition fees, during the grant duration, under the terms established in the internal document: "[Payment of Tuition fees to grant holders](#)".

The grant holder will benefit from health insurance, supported by INESC TEC.

2. OBJECTIVES:

- Detailed study of the operation of the energy consumption data collection system obtained from the WITHUS meters at INESC TEC buildings;
- Configuration and mapping of the new Shelly meters to be used;
- Development of scripts for automatic collection, processing, and storage of energy consumption data;
- Integration with the Sentinel platform so that the data can be made available through an endpoint;
- Development of an intuitive and dynamic dashboard for real-time display of building consumption data;
- Detailed study of the operation of a Daikin heat pump with a DCOM adapter;
- Development of a technical report on how to interact with the heat pump using a Moxa gateway;
- Development of scripts for data collection and sending setpoints to the heat pump.

3. BRIEF PRESENTATION OF THE WORK PROGRAMME AND TRAINING:

- Study the current process of collecting building consumption data from INESC TEC obtained from the WITHUS meters, identifying where the meters are installed and how communication is made.
- Update or develop a new data collection process for the new meters, aiming to improve possible issues with the existing script.
- Develop intuitive dashboards for presenting consumption data and displaying it in a browser environment.
- Integrate the data into the building's technical management system.
- Prepare a technical report:
- Study the functionalities of the Daikin heat pump and how to communicate with it through a DCOM adapter

connected to a Moxa gateway.

- Prepare a technical report on how to interact with the heat pump system and gateway, specifying their capabilities and how to retrieve and send information.

- Develop scripts to establish communication with the system, collect information, and send setpoints to control the heat pump's operation based on user needs.

4. REQUIRED PROFILE:

Admission requirements:

Electrotechnical Engineering, Telecommunications and Informatics Engineering, or similar

The awarding of the fellowship is dependent on the applicants' enrolment in study cycle or non-award courses of Higher Education Institutions.

Preference factors:

- Experience in Python, SQL, Modbus and Grafana
- Fluency in English (spoken and written)

Minimum requirements:

- Knowledge in one programming language
- Basic knowledge in data analysis, ICT and IoT

5. EVALUATION OF APPLICATIONS AND SELECTION PROCESS:

Selection criteria and corresponding valuation: the first phase comprises the Academic Evaluation (AC), based on the criteria referred to in Article 12 of the [Regulations for Grants of INESC TEC](#), while the second phase comprehends the Individual Interview (EI). All factors are evaluated on a scale of 0 to 100, taking into account the applicants' merit, suitability and conformity with the preference factors.

The weight of the AC factors are as follows: Academic Qualifications (FA, 50%), Scientific Publications (PC, 10%), Experience (EX, 30%) and Motivation Letter (CM, 10%).

Candidates who score less than 50 points in the AC average will be considered excluded on absolute merit. The top five candidates approved on absolute merit will be qualified for the individual interview. The Final Grade (CF) is obtained by the weighted average of AC (90%) and EI (10%).

DISABILITY INCENTIVE

Candidates who present a degree of disability equal to or greater than 90% will benefit from an incentive (20) in the score of the CV Assessment.

Candidates who present a degree of disability equal to or greater than 60% and less than 90% will also benefit from an incentive (10) in the score of the CV Assessment.

Said score may, in these cases, exceed 100 points.

Candidates must demonstrate the degree of disability during the application, namely through the submission of the Multi-Purpose Medical Certificate of Disability, issued in accordance with Decree-Law no. 202/96, of October 23 - currently in effect.

Candidates must declare, in the application form, the type of disability used throughout the selection process, in order to proceed with the required adaptations.

The Selection Jury is composed of the following members:

President of the Jury: Tiago André Soares

Full member: Hermano Bernardo

Full member: Filipe Joel Soares

Substitute member: Ricardo Jorge Bessa

Release of results and prior hearing: the results of the selection process, as well as the terms and procedures for prior hearing, will be released to the applicants by email, under the terms referred to in Article 13 of the Regulations for Studentships and Fellowships of INESC TEC.

6. FORMALISATION OF APPLICATIONS:

Application Documents:

1. Motivation letter;
2. Curriculum Vitae (must include the list of previous fellowships, their type, beginning and end dates, funding entities and host institutions);
3. Certificate or diploma degree;
4. Proof of enrollment in a degree awarding study cycle or in a non degree awarding Higher Education program.
 - The proof of enrollment may be presented just during the grant hiring stage.
5. Signed declaration stating the infringement of the grant holder's duties (article 14, no. 4)
6. Documental evidence to support the country of residence, residence permit or other legally equivalent document, in cases where the applicant is a foreigner or non-resident in Portugal - valid until the beginning of the grant.
7. Other supporting documents relevant to the final assessment.

Failure to deliver the required documents within the 90-day period after the date of the notice of the conditional awarding of the grant implies its cancellation.

Application period: From 2025-04-28 to 2025-05-12

Submission of applications: the application will be formalised by submitting the form available in the *Work With Us* section of INESC TEC website.

7. BINDING LEGISLATION AND REGULATION

The hiring process shall comply with the current legislation regarding the Research Grant Holder Statute, approved by Law no. 40/2004 of August 18, in its current wording, as well as by the [Regulations for Grants of INESC TEC](#) and for [FCT Grants Regulation in force](#).
