

## CALL FOR APPLICATIONS: RESEARCHER

### Job/position/grant:

<b>Job reference:</b>	AE2025-0260 ( ATE - CRAS ) INESC TEC - Instituto de Engenharia de Sistemas e Computadores, Tecnologia e Ciência
<b>Job/position/grant:</b>	RESEARCHER
<b>City:</b>	Porto
<b>Research field:</b>	Main: ENGINEERING Sub: Electrical engineering

### Job summary:

<b>INESC TEC is accepting applications for 1 RESEARCHER job in the Electrical Engineering with experience in power systems</b>	
<b>Project:</b>	Alliance for Energy Transition
<b>Scientific Advisor:</b>	Eduardo Silva
<b>Start Date:</b>	2025-07-23
<b>Location:</b>	INESC TEC, Porto, Portugal

### Job description:

<b>Work Area:</b> Electrical Engineering with experience in power systems
<b>Project overview:</b> The Alliance for Energy Transition (ATE) project aims to develop and industrialize new technologies to support the decarbonization of society, taking advantage of technological and scientific knowledge in the field of Energy in Portugal. The selected candidate will be responsible for the management and technical operation of a production site and injection of marine renewable energy into the electrical grid and for the control of renewable production. It must also implement an operation and maintenance plan and the evolution of the testing infrastructure, in particular with regard to the specification of the data acquisition and supervision, protection, command and control system of the installation that foresees the installation of a new substation and marine connections (offshore), submarine cable to land and onshore substation with connection to the national electricity grid based on greater injection capacity into the grid.
<b>Objectives:</b> - Technically responsible for the operation and maintenance of a marine renewable energy testing site and the injection of the energy produced into the electrical grid; - Identify opportunities for developing the test site, especially in specifying the installation's communication and supervision, protection, command and control system; - Monitor the installation's adaptation and development process, with a view to increasing its testing capacity for new prototypes and increasing production and injection capacity into the network.

<b>Academic Qualifications:</b>	Bachelor's Degree or Master's degree in electrical engineering, electrical power systems, or related field.
<b>Minimum profile required:</b>	- Experience in renewable energy production solutions; - Experience in designing and sizing energy systems. (BT); - Experience in supervision and data acquisition systems;
<b>Preference factors:</b>	- Experience in command, control and protection systems for electrical installations. - Knowledge of electronics, networks and communication systems is valued. - Registration with the Order of Engineers is valued. - Fluency in Portuguese (written and spoken). - Fluency in English (written and spoken).

<b>Funding Entity:</b>	ATE funded by IAPMEI with reference 56 Co-financed by Component 5 - Capitalization and Business Innovation, integrated in the Resilience Dimension of the Recovery and Resilience Plan within the scope of the Recovery and Resilience Mechanism (MRR) of the European Union (EU), framed in the Next Generation EU, for the period 2021 - 2026.
<b>Type of contract:</b>	Uncertain term contract The hiring shall be governed by what is stipulated in the legislation in force regarding uncertain term employment contracts and by INESC TEC norms.

<b>Selection criteria:</b>	The selection of the candidates will be based on the following criteria, in descending order of consideration: a) Relevant Curriculum in the concerned field of this tender b) Proven experience.
<b>Disability Incentive:</b>	Candidates who present a degree of disability equal to or greater than 90% will benefit from an incentive (20) in the score of the CV Assessment. Candidates who present a degree of disability equal to or greater than 60% and less than 90% will also benefit from an incentive (10) in the score of the CV Assessment. Said score may, in these cases, exceed 100 points. Candidates must demonstrate the degree of disability during the application, namely through the submission of the Multi-Purpose Medical Certificate of Disability, issued in accordance with Decree-Law no. 202/96, of October 23 - currently in effect. Candidates must declare, in the application form, the type of disability used throughout the selection process, in order to proceed with the required adaptations.

<b>Selection Jury:</b>	President of the Jury: João Claro; Member: Luís Miguel Lopo dos Santos Seca; Member: Aníbal Matos; Substitute member: Maria da Graça Nogueira Arantes Dias Barbosa;
<b>Notification of results:</b>	The results of the selection process will be sent to the interested by electronic mail.
<b>Application period:</b>	From 2025-06-23 to 2025-07-04
<b>Application submission:</b>	Electronic form filling in <a href="http://www.inesctec.pt">www.inesctec.pt</a> in the section <a href="#">Work with Us</a>
