

## CALL FOR GRANT APPLICATIONS (AE2025-0539)

INESC TEC is now accepting grant applications to award 1 Research Grant (BI) within the scope of the within the scope of the project EuroCC2 with reference 101101903 Funded by European High-Performance Computing Joint Undertaking (EuroHPC JU), under the Horizon Europe programme, and by National Funds through FCT - Foundation for Science and Technology, I.P.

### 1. GRANT DESCRIPTION

**Type of grant:** Research Grant (BI)

**General scientific area:** COMPUTER SCIENCE

**Scientific subarea:** Informatics

**Area of Work:** Computer Science

**Grant duration:** 3 months, starting on 2026-01-01.

**Scientific advisor:** João Tiago Paulo

**Workplace:** INESC TEC, Braga, Portugal

**Maintenance stipend:** € 1309.64, [according to the table of monthly maintenance stipend for FCT grants](#), paid via bank transfer. Grant holders may be awarded potential supplements, according to a quarterly evaluation process (Articles 19, 21 and 22 of the [Regulations for Grants of INESC TEC](#) and Annex II), up to a maximum limit of 50% of the monthly maintenance stipend.

INESC TEC supports costs with registration, enrolment or tuition fees, during the grant duration, under the terms established in the internal document: "[Payment of Tuition fees to grant holders](#)".

The grant holder will benefit from health insurance, supported by INESC TEC.

### 2. OBJECTIVES:

This grant, within the scope of the EuroCC2 project, has as its main objectives the research and development of new features for the Intel SPDK (Storage Performance Development Kit) platform and its exploration in high-performance computing systems, such as HPC infrastructures. More specifically, we are looking for new scientific contributions that: 1) improve the platform's interface and usability; 2) increase the range of I/O optimizations supported by the library (e.g., deduplication, caching, scheduling) and 3) identify the limitations and required modifications to the platform for transparent integration into HPC systems.

These objectives are fundamental to improving the efficiency of the SPDK platform and increasing the range of applications that can utilize it, thereby taking advantage of its high performance and low latency. Furthermore, these goals are essential for enhancing the use of storage resources in HPC systems and for defining new best-practice guidelines for users.

### 3. BRIEF PRESENTATION OF THE WORK PROGRAMME AND TRAINING:

The work plan includes the exploration, design, and implementation of new interfaces for the SPDK platform. In this topic, the exploration of file-oriented interfaces is desired.

In parallel, we intend to explore new optimizations, such as data deduplication, support for multi tenancy, and new scheduling algorithms. These optimizations should be implemented and integrated into the platform. Implementation contributions should be evaluated experimentally with different realistic and synthetic workloads. Finally, the identification of the limitations and required modifications for integrating the platform into HPC systems is also intended.

#### 4. REQUIRED PROFILE:

##### Admission requirements:

MSc Degree in Informatics Engineering.

The awarding of the fellowship is dependent on the applicants' enrolment in study cycle or non-award courses of Higher Education Institutions.

##### Preference factors:

- Experience on implementing I/O optimization techniques.

##### Minimum requirements:

- Solid knowledge of file systems, block devices, and operating systems;
- Knowledge of I/O optimizations (e.g., scheduling, caching, deduplication);
- Experience using the Intel SPDK platform;
- Experience optimizing the Intel SPDK platform.

#### 5. EVALUATION OF APPLICATIONS AND SELECTION PROCESS:

**Selection criteria and corresponding valuation:** the first phase comprises the Academic Evaluation (AC), based on the criteria referred to in Article 12 of the [Regulations for Grants of INESC TEC](#), while the second phase comprehends the Individual Interview (EI). All factors are evaluated on a scale of 0 to 100, taking into account the applicants' merit, suitability and conformity with the preference factors.

The weight of the AC factors are as follows: Academic Qualifications (FA, 70%), Scientific Publications (PC, 10%), Experience (EX, 10%) and Motivation Letter (CM, 10%).

Candidates who score less than 50 points in the AC average will be considered excluded on absolute merit. The top five candidates approved on absolute merit will be qualified for the individual interview. The Final Grade (CF) is obtained by the weighted average of AC (80%) and EI (20%).

##### DISABILITY INCENTIVE

Candidates who present a degree of disability equal to or greater than 90% will benefit from an incentive (20) in the score of the CV Assessment.

Candidates who present a degree of disability equal to or greater than 60% and less than 90% will also benefit from an incentive (10) in the score of the CV Assessment.

Said score may, in these cases, exceed 100 points.

Candidates must demonstrate the degree of disability during the application, namely through the submission of the Multi-Purpose Medical Certificate of Disability, issued in accordance with Decree-Law no. 202/96, of October 23 - currently in effect.

Candidates must declare, in the application form, the type of disability used throughout the selection process, in order to proceed with the required adaptations.

##### The Selection Jury is composed of the following members:

President of the Jury: João Tiago Paulo

Full member: Ricardo Gonçalves Macedo

Full member: Tânia Esteves

Substitute member: Cláudia Vanessa Brito

**Release of results and prior hearing:** the results of the selection process, as well as the terms and procedures for prior hearing, will be released to the applicants by email, under the terms referred to in Article 13 of the Regulations for Studentships and Fellowships of INESC TEC.

#### 6. FORMALISATION OF APPLICATIONS:

##### Application Documents:

1. Motivation letter;
2. Curriculum Vitae (must include the list of previous fellowships, their type, beginning and end dates, funding entities and host institutions);
3. Certificate or diploma degree;
4. Proof of enrollment in a degree awarding study cycle or in a non degree awarding Higher Education program.

- The proof of enrollment may be presented just during the grant hiring stage.
5. Signed declaration stating the infringement of the grant holder's duties (article 14, no. 4)
  6. Documental evidence to support the country of residence, residence permit or other legally equivalent document, in cases where the applicant is a foreigner or non-resident in Portugal - valid until the beginning of the grant.
  7. Other supporting documents relevant to the final assessment.

Failure to deliver the required documents within the 90-day period after the date of the notice of the conditional awarding of the grant implies its cancellation.

**Application period:** From 2025-11-20 to 2025-12-04

**Submission of applications:** the application will be formalised by submitting the form available in the *Work With Us* section of INESC TEC website.

## 7. BINDING LEGISLATION AND REGULATION

The hiring process shall comply with the current legislation regarding the Research Grant Holder Statute, approved by Law no. 40/2004 of August 18, in its current wording, as well as by the [Regulations for Grants of INESC TEC](#) and for [FCT Grants Regulation in force](#).

For more information, please check the [Regulations for Grants of INESC TEC](#) and relevant annexes at [www.inesctec.pt/bolsas](http://www.inesctec.pt/bolsas)
