

CALL FOR GRANT APPLICATIONS

(AE2026-0230)

INESC TEC is now accepting grant applications to award 1 Research Grant (BI) within the scope of the project DEFLECT with reference 17185 (COMPETE2030-FEDER-00875500) co-funded by the ERDF - European Regional Development Fund through Innovation and Digital Transition Program - COMPETE 2030 under the scope of Portugal 2030 and by National Funds through the FCT - Fundacao para a Ciencia e a Tecnologia, I.P. (Portuguese Foundation for Science and Technology).

1. GRANT DESCRIPTION

Type of grant: Research Grant (BI)

General scientific area: COMPUTER SCIENCE

Scientific subarea: Informatics

Area of Work: Computer Science

Grant duration: 6 months, starting on 2026-09-01, with the possibility of being renewed until the end of the project.

Scientific advisor: Hugo Paredes

Workplace: INESC TEC, Porto, Portugal

Maintenance stipend: € 1359.64, [according to the table of monthly maintenance stipend for FCT grants](#), paid via bank transfer. Grant holders may be awarded potential supplements, according to a quarterly evaluation process (Articles 19, 21 and 22 of the [Regulations for Grants of INESC TEC](#) and Annex II), up to a maximum limit of 50% of the monthly maintenance stipend.

INESC TEC supports costs with registration, enrolment or tuition fees, during the grant duration, under the terms established in the internal document: [Payment of Tuition fees to grant holders](#).

The grant holder will benefit from health insurance, supported by INESC TEC.

2. OBJECTIVES:

- To understand the challenges associated with the collection, quality and analysis of longitudinal health data;
- To develop skills in the design, implementation and evaluation of data science-driven approaches applied to healthcare;
- To explore approaches suitable for analysing incomplete and/or distributed data, using techniques such as imputation or federated learning;
- To adopt good research and development practices, ensuring methodological rigour, reproducibility, documentation and critical analysis of the limitations of the methods used;
- To apply critical thinking when evaluating the research process and the results obtained;
- To prepare project documentation and scientific publications.

3. BRIEF PRESENTATION OF THE WORK PROGRAMME AND TRAINING:

The work plan includes a review of the state of the art on data science approaches applied to healthcare, as well as the study of the main challenges associated with the collection, preparation, quality and analysis of longitudinal data. Approaches suited to the problems and data considered within the scope of the project will be designed, selected and implemented. The work may include techniques for imputing missing data or federated learning approaches for analysing distributed data. The approaches developed will be systematically evaluated and compared, considering their performance, suitability for the context, robustness and limitations. The work will also include the critical analysis and discussion of the results, the adoption of practices that promote reproducibility, the documentation of the activities carried out, and the preparation of reports and scientific publications.

4. REQUIRED PROFILE:

Admission requirements:

- Master's degree in Computer Engineering or a related field, with a final grade of 16 out of 20 or higher. The awarding of the fellowship is dependent on the applicants' enrolment in study cycle or non-award courses of Higher Education Institutions.

Preference factors:

- Experience in designing and developing databases for heterogeneous data;
- Experience participating in research projects;
- Ability to collaborate and interact with different types of partners, including industry partners.

Minimum requirements:

- Publication of at least four peer-reviewed scientific articles;
- Academic background in computer science and communication technologies;
- Experience developing backend solutions for data storage and management.

5. EVALUATION OF APPLICATIONS AND SELECTION PROCESS:

Selection criteria and corresponding valuation: the first phase comprises the Academic Evaluation (AC), based on the criteria referred to in Article 12 of the [Regulations for Grants of INESC TEC](#), while the second phase comprehends the Individual Interview (EI). All factors are evaluated on a scale of 0 to 100, taking into account the applicants' merit, suitability and conformity with the preference factors.

The weight of the AC factors are as follows: Academic Qualifications (FA, 40%), Scientific Publications (PC, 25%), Experience (EX, 25%) and Motivation Letter (CM, 10%).

Candidates who score less than 50 points in the AC average will be considered excluded on absolute merit. The top five candidates approved on absolute merit will be qualified for the individual interview. The Final Grade (CF) is obtained by the weighted average of AC (60%) and EI (40%).

DISABILITY INCENTIVE

Candidates who present a degree of disability equal to or greater than 90% will benefit from an incentive (20) in the score of the CV Assessment.

Candidates who present a degree of disability equal to or greater than 60% and less than 90% will also benefit from an incentive (10) in the score of the CV Assessment.

Said score may, in these cases, exceed 100 points.

Candidates must demonstrate the degree of disability during the application, namely through the submission of the Multi-Purpose Medical Certificate of Disability, issued in accordance with Decree-Law no. 202/96, of October 23 currently in effect.

Candidates must declare, in the application form, the type of disability used throughout the selection process, in order to proceed with the required adaptations.

The Selection Jury is composed of the following members:

President of the Jury: Hugo Paredes

Full member: Artur Rocha
Full member: Ademar Aguiar
Substitute member: Tiago Manuel Campelos

Release of results and prior hearing: the results of the selection process, as well as the terms and procedures for prior hearing, will be released to the applicants by email, under the terms referred to in Article 13 of the Regulations for Studentships and Fellowships of INESC TEC.

6. FORMALISATION OF APPLICATIONS:

Application Documents:

1. Motivation letter;
2. Curriculum Vitae (must include the list of previous fellowships, their type, beginning and end dates, funding entities and host institutions);
3. Certificate or diploma degree;
4. Proof of enrollment in a degree awarding study cycle or in a non degree awarding Higher Education program.
 - The proof of enrollment may be presented just during the grant hiring stage.
5. Signed declaration stating the infringement of the grant holder's duties (article 14, no. 4)
6. Documental evidence to support the country of residence, residence permit or other legally equivalent document, in cases where the applicant is a foreigner or non-resident in Portugal - valid until the beginning of the grant.
7. Other supporting documents relevant to the final assessment.

Failure to deliver the required documents within the 90-day period after the date of the notice of the conditional awarding of the grant implies its cancellation.

Application period: From 2026-07-30 to 2026-08-12

Submission of applications: the application will be formalised by submitting the form available in the *Work With Us* section of INESC TEC website.

7. BINDING LEGISLATION AND REGULATION

The hiring process shall comply with the current legislation regarding the Research Grant Holder Statute, approved by Law no. 40/2004 of August 18, in its current wording, as well as by the [Regulations for Grants of INESC TEC](#) and for [FCT Grants Regulation in force](#).

For more information, please check the [Regulations for Grants of INESC TEC](#) and relevant annexes at www.inesctec.pt/bolsas
