

CALL FOR GRANT APPLICATIONS

(AE2026-0237)

INESC TEC is now accepting grant applications to award 1 Research Grant (BI) project BCDSM, with reference 14436 (NORTE2030-FEDER-00584600) Co-funded by ERDF - European Regional Development Fund through the NORTE 2030 Regional Program under the scope of Portugal 2030.

1. GRANT DESCRIPTION

Type of grant: Research Grant (BI)

General scientific area: COMPUTER SCIENCE

Scientific subarea: Informatics

Area of Work: Operating Systems

Grant duration: 3 months, starting on 2026-09-02, with the possibility of being renewed until the end of the project.

Scientific advisor: João Tiago Paulo

Workplace: Braga

Maintenance stipend: € 1090.98, [according to the table of monthly maintenance stipend for FCT grants](#), paid via bank transfer. Grant holders may be awarded potential supplements, according to a quarterly evaluation process (Articles 19, 21 and 22 of the [Regulations for Grants of INESC TEC](#) and Annex II), up to a maximum limit of 50% of the monthly maintenance stipend.

INESC TEC supports costs with registration, enrolment or tuition fees, during the grant duration, under the terms established in the internal document: [Payment of Tuition fees to grant holders](#).

The grant holder will benefit from health insurance, supported by INESC TEC.

2. OBJECTIVES:

This scholarship's main objectives are the research and development of new experimental evaluation tools that allow testing the correctness of data-centric systems and data storage systems. To this end, the aim is to develop new fault injection tools that make it possible to identify and reproduce serious errors associated with the interaction between applications and storage systems.

This solution will be fundamental to ensuring greater robustness and reliability of data-centric applications (for example, databases and machine learning tools), as well as the durability of the data processed by them.

3. BRIEF PRESENTATION OF THE WORK PROGRAMME AND TRAINING:

Evolution of the LazyFS tool (<https://github.com/dsrhaslab/lazyfs>) in order to ensure greater ease and speed in reproducing data durability bugs. Evaluation of the tool with real bugs and validation of its performance and accuracy. Exploration of new errors in other data-centric applications.

The tasks described in this work plan demand the application and development of concepts and techniques in the areas of Computer Science and Informatics Engineering, which are usually introduced in curricular units included in the curricula of BSc courses in Computer Science and Informatics Engineering.

4. REQUIRED PROFILE:

Admission requirements:

BSc Degree in Computer Science or Informatics Engineering.

The awarding of the fellowship is dependent on the applicants' enrolment in study cycle or non-award courses of Higher Education Institutions.

Preference factors:

- Experience with the LazyFS tool.

Minimum requirements:

- Solid knowledge of operating systems;
- Hands-on experience with storage systems and techniques, supported by technical evidence (such as code repositories, projects, functional prototypes, articles, or theses), including public URLs to these materials or by submitting them as attachments to the application;
- Hands-on experience with the evaluation of data durability bugs, supported by technical evidence (such as code repositories, projects, functional prototypes, articles, or theses), including public URLs to these materials or by submitting them as attachments to the application;
- Hands-on experience with storage fault-injection tools.

5. EVALUATION OF APPLICATIONS AND SELECTION PROCESS:

Selection criteria and corresponding valuation: the first phase comprises the Academic Evaluation (AC), based on the criteria referred to in Article 12 of the [Regulations for Grants of INESC TEC](#), while the second phase comprehends the Individual Interview (EI). All factors are evaluated on a scale of 0 to 100, taking into account the applicants' merit, suitability and conformity with the preference factors.

The weight of the AC factors are as follows: Academic Qualifications (FA, 70%), Scientific Publications (PC, 10%), Experience (EX, 10%) and Motivation Letter (CM, 10%).

Candidates who score less than 50 points in the AC average will be considered excluded on absolute merit. The top five candidates approved on absolute merit will be qualified for the individual interview. The Final Grade (CF) is obtained by the weighted average of AC (80%) and EI (20%).

DISABILITY INCENTIVE

Candidates who present a degree of disability equal to or greater than 90% will benefit from an incentive (20) in the score of the CV Assessment.

Candidates who present a degree of disability equal to or greater than 60% and less than 90% will also benefit from an incentive (10) in the score of the CV Assessment.

Said score may, in these cases, exceed 100 points.

Candidates must demonstrate the degree of disability during the application, namely through the submission of the Multi-Purpose Medical Certificate of Disability, issued in accordance with Decree-Law no. 202/96, of October 23 currently in effect.

Candidates must declare, in the application form, the type of disability used throughout the selection process, in order to proceed with the required adaptations.

The Selection Jury is composed of the following members:

President of the Jury: João Tiago Paulo

Full member: Tânia Esteves

Full member: Cláudia Vanessa Brito

Substitute member: Ricardo Gonçalves Macedo

Release of results and prior hearing: the results of the selection process, as well as the terms and procedures for prior hearing, will be released to the applicants by email, under the terms referred to in Article 13 of the Regulations for Studentships and Fellowships of INESC TEC.

6. FORMALISATION OF APPLICATIONS:

Application Documents:

1. Motivation letter;
2. Curriculum Vitae (must include the list of previous fellowships, their type, beginning and end dates, funding entities and host institutions);
3. Certificate or diploma degree;
4. Proof of enrollment in a degree awarding study cycle or in a non degree awarding Higher Education program.
 - The proof of enrollment may be presented just during the grant hiring stage.
5. Signed declaration stating the infringement of the grant holder's duties (article 14, no. 4)
6. Documental evidence to support the country of residence, residence permit or other legally equivalent document, in cases where the applicant is a foreigner or non-resident in Portugal - valid until the beginning of the grant.
7. Other supporting documents relevant to the final assessment.

Failure to deliver the required documents within the 90-day period after the date of the notice of the conditional awarding of the grant implies its cancellation.

Application period: From 2026-07-30 to 2026-08-12

Submission of applications: the application will be formalised by submitting the form available in the *Work With Us* section of INESC TEC website.

7. BINDING LEGISLATION AND REGULATION

The hiring process shall comply with the current legislation regarding the Research Grant Holder Statute, approved by Law no. 40/2004 of August 18, in its current wording, as well as by the [Regulations for Grants of INESC TEC](#) and for [FCT Grants Regulation in force](#).
