Where Europe shapes the future of AI, Data and Robotics

ADRF is a high-impact European forum connecting hundreds of key players from industry, academia and policy to accelerate innovation and real-world technological transformation.

13-14 October 2026

Alfandega Porto
Congress Centre
Porto, Portugal

Why ADRF26?

ADRF26 will bring together **500 leading experts, innovators, policymakers, and enthusiasts** from the AI, Data, and Robotics community, positioning Porto at the centre of strategic technological debate.

Organised by **INESC TEC**, the largest Research and Technology Organisation (RTO) in Portugal, and **ADRA**, the private side of the European Partnership on AI, Data and Robotics, and with the involvement of the **European Commission**, the forum represents one of Europe's most relevant platforms for **strategic dialogue and innovation**.

Previous editions attracted a broad range of sponsors from **leading research institutions** and **technology-driven organisations** across Europe, demonstrating the forum's strong visibility and credibility within the ecosystem.

Delivering impact.

Visionary keynotes, high-level panels and parallel sessions address **strategic, industrial and societal challenges**, fostering discussion on Europe's technological future and competitiveness.

Highlights on **emerging trends** and **strategic opportunities** support Europe's ambition to position itself as a global leader in advanced digital technologies.

ADRF accelerates **partnerships** and **strengthens** the European innovation agenda.

Exhibition spaces, project showcases and structured networking moments provide attendees with direct access to decision-makers, innovators and potential partners from across Europe.

2025 edition highlights

500 participants, benefiting from top keynote speakers, more than **40 parallel sessions**, on different topics - such as **emerging technologies, resilience and sovereignty, safety, security and geopolitical power, compliance and societal dimensions and industries and markets.**

An ecosystem full of networking:

13 sponsor pitches,
7 sponsor presentations
and **23** sponsor stands.
